Re: 1982-1983 Annual Report of the
Arizona Department of Insurance

It is once again my privilege to submit for your review the Annual Report of the Arizona Department of Insurance. This Seventieth Annual Report includes relevant insurer financial information, as well as a summary of the Department's significant activities during the past fiscal year.

The basic format of the report follows closely the format used in last year's report. The changes that were initiated last year in the presentation of the company financial information received favorable comment. The relevant data is presented in an understandable manner to assist the reader in locating key information. While the report may seem voluminous, it should be noted that Arizona has more licensed insurers than any other state; accordingly, the information contained herein reflects that reality.

Before I summarize the activities of the Department during the twelve months ending June 30, 1983, I believe it is important to emphasize the principal issue currently facing state insurance regulators. The issue of insurer solvency, highlighted by recent developments, not only in Arizona but across the country, provides irrefutable evidence of the critical nature of this problem. The restructuring taking place within the insurance industry, which includes the emergence of new multi-faceted financial services institutions, has challenged traditional barriers that previously distinguished insurance, banking and securities businesses from one another. An interest rate sensitive public rightfully has demanded newer and higher yielding insurance products. The tremendous capacity of the property and casualty insurance industry has led to intense competition for available premium dollars, resulting in dramatic reductions in rates paid by policyholders. The result of these factors will be the elimination of those insurers that are inefficient or without the kinds of products that the new, more sophisticated insurance buyer demands.

When one considers that this trend will accelerate from the impact of automation and computer capability, the long-term outlook is for more efficient but fewer players in the insurance industry. That outlook throughout this period of transition takes on a grim character when one factors in the devastating impact of uncontrollable health care costs on health insurers over the recent years. Indeed, this discouraging trend is emphasized by information filed with the Department that indicates hospital costs in Arizona rose at the frightening rate of thirty-two per cent per patient per day during the twelve months ending June 30, 1983.

The prospect, therefore, is for deeper and more complicated insurance insolvencies. Striking examples of this problem appeared last year. Iowa State Travelers Mutual Assurance Corporation, a hundred year old Iowa insurance company, failed and left a long trail of unpaid health insurance claims not only in Arizona but across the country. Baldwin-United, one of the new multi-billion dollar financial services conglomerates, is presently experiencing grave financial difficulty. Its two lead insurers are both under court ordered rehabilitation in their respective states of Arkansas and Indiana. The amount of insurance liabilities on the books of these companies exceeds $4 billion. In Arizona alone, the liabilities of the Baldwin-United insurers exceed $100 million and include a substantial amount of single premium deferred annuity business written for state employees through the State Deferred Compensation Plan.

The Department is continuing its efforts to minimize the problems created by the failings of these foreign insurers. Iowa State Travelers claims are being processed by our state Life and Disability Insurance Guaranty Fund. Arizona is represented on a key committee nationally that is helping to devise the preliminary rehabilitation plan for Baldwin-United insurers. Further, we acted to take prompt and aggressive steps to protect Arizona claimants of the defunct American Benefits Trust of California, including negotiating an arrangement whereby Arizona claimants would be fully paid through proceeds of an insurer affiliated with this out of state trust.

Still, solvency problems will prevail while the industry restructures, competition heightens and external forces, including rising health care costs, dilute the financial strength of insurers. How the states respond to this problem may well be the ultimate test of whether a federal system of insurance regulation will be enacted. While many states have adopted guaranty funds to protect policyholders (and in Arizona, we have both a property and casualty and a life and disability guaranty fund), there is a growing body of commentary that such funds are not geared up to effectively handle a major insolvency. It is of critical importance, therefore, that the Legislature be alerted to the pivotal role played by the Department in protecting policyholders in this state. The Department has worked quietly and effectively to help several domestic companies cope with their solvency problems. Chester Flaxmayer, Special Assistant to the Director, Roy Gill, CFE, the Department's Chief Examiner, and William Robinson, FCA, MAAA, the Department's Chief Actuary, are part of a Department team effort working with troubled companies and the guaranty funds to fully protect Arizona policyholders. In this regard, there is a compelling need for the Department to be able to continue to coordinate Department responsibilities with the guaranty funds in order to ensure that both funds are operating consistent with Arizona law and taking the necessary steps to minimize the adverse consequences of an insurer insolvency for residents of this state.

While the long-term outlook is bleak, I believe that the Arizona Department is staffed with capable, hardworking people who can handle these problems and minimize the impact on policyholders and the industry. Certainly, the forces at play in the national economy will necessarily result in an industry restructuring leaving fewer insurers in the marketplace; still, the negative effect on policyholders can be controlled by maintaining a strong, adequately funded state insurance department. We are committed to protecting every Arizona resident from losses due to insurer insolvency. Although the changes ahead will test several tenets and theories that have long supported our basic system of state regulation of insurance, I am confident that we can solve these problems in a way that credits the State of Arizona.

I. Department Divisions

The Insurance Department is organized into six divisions. As of June 30, 1983, the divisions were Property and Casualty, Life, Disability and Licensing, Examinations and Admissions, Consumer Affairs and Investigations, Hearings and Administration. Each division chief reports to the Director and is charged with overseeing his or her specific responsibilities as prescribed by the Arizona Insurance Laws and as assigned by the Director. The Director is assisted in the administration of the Department by Mr. Chester Flaxmayer, the Special Assistant to the Director.

A. Property and Casualty Division

The Property and Casualty Division is headed by Ms. Deloris Williamson, the Chief Deputy Director. Ms. Williamson succeeds Mr. Emil Barberich in this key position. Mr. Barberich is continuing to work for the Department as a market conduct examiner.

The workload of the Property and Casualty Division throughout the past fiscal year has been substantial. The division prepared and published several major surveys including the personal lines complaint ratios, a survey of Arizona municipalities regarding the federal crime insurance program, an auto premium comparison, an analysis of senior citizens auto rates, a survey of thirty and ninety-day auto policies and a comprehensive review of the kinds of commercial lines insurance forms that could be exempted from filing pursuant to newly enacted H.B. 2304. The division reviewed and processed over 7,200 form filings, prepared several technical exhibits and initiated complex investigations relating to workers' compensation dividend abuses and the failure on the part of certain auto insurers to pay sales taxes and registration fees on total loss claims. The various settlements and consent orders negotiated by the division should result in well over $1 million being paid to Arizona policyholders in connection with these investigations.

The division also oversaw the performance of market conduct examinations involving major insurers that collectively write fifty to sixty per cent of the personal lines, i.e., auto and homeowners insurance, market. Division personnel also chaired or participated in advisory committees working on a uniform auto insurance identification card, a statewide anti-arson task force and a records management committee.

B. Life, Disability and Licensing Division

The Life, Disability and Licensing Division is under the direction of Ms. Andrea Lazar, the Assistant Director. This division has responsibility for reviewing life and health insurance policy forms and advertising materials, as well as rate filings for individual health insurance coverages. During 1982-1983, the division introduced significant cost savings and efficiency measures designed to reduce paper work and provide insurers with greater flexibility, while at the same time continuing regulatory protection in those areas where problems have arisen. The division deregulated approximately thirty-five per cent of all life insurance forms and twenty-five per cent of all health insurance forms based upon an in depth study of the Department's consumer complaints. It was concluded that these forms, which include ordinary whole life, term insurance, immediate payment annuities, disability income policies and accidental death and disability coverages, only result in less than one per cent of all consumer complaints logged by the Department.

Notwithstanding the deregulation order, the division still had a considerable workload which resulted in the review and approval of 13,700 forms and the disapproval of 1,200 policy forms. Although the number of forms approved during fiscal year 1982-83 decreased twenty-one per cent, the number of forms disapproved increased thirteen per cent, emphasizing the Department's continued activity in closely scrutinizing those forms that are deemed potentially troublesome. It should also be stressed that division personnel maintained close surveillance over all Medicare supplement insurance policies and advertising submitted for use in this state.

The Assistant Director of the division continued to serve as the Department's liaison with the Senior Citizens Health Insurance Advisory Committee, a body I established to focus upon health insurance problems of the elderly. The Assistant Director also served upon the Arizona Uniform Billing Committee that was established to implement the uniform hospital billing legislation enacted last session.

Throughout the year the division undertook a continued cooperative effort with the Arizona Association of Life Underwriters. Because of the significant impact that universal and variable life type products have had on the marketplace, there was a compelling need to ensure that Department investigators have the knowledge and training to effectively police market abuses. The Assistant Director, working in conjunction with the Association of Life Underwriters, prepared a comprehensive program of eleven two hour seminars relating to all aspects of life insurance for the Consumer Affairs and Investigations Division personnel.

Also, this division includes the licensing section headed by Ms. Shirley Wutz. This section has overall responsibility for licensing all insurance agents, brokers, solicitors and adjusters in the state. During fiscal year 1982-1983, the section issued 7,805 new agent licenses, bringing the total number of agents licensed in Arizona as of June 30, 1983, to 23,149.

C. Consumer Affairs and Investigations Division

The Department's Consumer Affairs and Investigations Division is headed by Mr. T. E. Morales. The division is responsible for carrying out the Department's consumer assistance program and conducting investigations for possible administrative hearings or litigation regarding violations of the insurance laws. This division also operates the Tucson office of the Department.

During the past fiscal year, the division received over 5,000 written complaints and handled over 70,000 telephone complaints and inquiries from Arizona policyholders and claimants. The division, acting as an informal arbiter and mediator, was able to successfully assist Arizona policyholders in obtaining settlements with their insurers in an amount of approximately $4.5 million. Moreover, the division operated a statewide consumer hot line (1-800-352-5485) so that policyholders outside of Maricopa and Pima Counties could contact the Department when they have questions or problems relating to insurance. The hot line generated more than 2,700 telephone calls from Arizona communities during the past fiscal year. The division also assisted in the distribution and dissemination of the Department's consumer information materials to the public, including auto and homeowners premium comparisons and the personal lines complaint ratios, as well as other informative materials and brochures. As part of the overall consumer assistance program, the division provided speakers to public schools and interested groups on a range of topics including insurance claim practices, auto and health insurance problems and the role of the Department. It should also be pointed out that the division promptly dispatched three investigators to assist residents living along the Colorado River during the heavy flooding that took place during June and July of this year.

The Consumer Affairs and Investigations Division also oversees the administration of the Unfair Claims Settlement Practices Act and the Department's regulation adopted pursuant to the act. The division issued 228 citations for unfair claim practices against insurers. Eight companies were targeted for market conduct examinations relating to their claim practices. One hundred forty-seven investigations of agents, brokers and adjusters were conducted which resulted in fifty-three matters being referred for hearing or other Department action.

D. Examinations and Admissions Division

Of paramount importance with respect to the Department's role in monitoring insurer solvency and protecting policyholders from companies in an unsound financial condition, is the Examinations and Admissions Division headed by Mr. Roy Gill, CFE. The division doubled the number of financial examinations of insurers it conducted during the past fiscal year from 112 to 222. The division prescreened and admitted seventy-seven new Arizona insurers and 134 foreign and alien insurers. As of June 30, 1983, Arizona had 1,989 licensed insurers authorized to transact business in this state. Indeed, Arizona has more licensed insurers than any other state in the nation. The number of licensed domestic carriers increased from 636 to 666 during this past fiscal year.

The division also has the responsibility for the collection of premium taxes and fees. During fiscal year 1982-1983, over $36.4 million were collected and remitted to the State

General Fund. Another $1.7 million in various licenses and miscellaneous fees were also collected. When the premium tax allocations that are paid to the Industrial Commission, the Highway Patrol Retirement Fund and the Firefighters Relief and Pension Fund are added together, the premium taxes and fees collected on behalf of the State of Arizona by the Department during 1982-1983 totaled $45.8 million. By way of contrast, the Department's entire budget for the same period of time was $1.5 million.

E. Hearing Division

The Hearing Division is headed by Mr. Jeffrey Larson. The division is involved in the formal implementation of the decisions and rulings of the Department. Not only does the Hearing Division conduct all disciplinary proceedings against companies and agents, but it also holds hearings regarding the acquisitions, mergers and withdrawals of Arizona insurers. During the past fiscal year, the division conducted hearings and issued disciplinary orders revoking, suspending or fining the licenses of thirty-nine insurance agents. Additionally, the division prepared and issued orders denying the issuance of licenses to nine individuals. The division also suspended or revoked the certificates of authority of twenty-three insurers, placed five insurers under the supervision of the Department and ordered two insurers into conservatorship. The division conducted hearings and ruled upon applications involving thirty acquisitions, twenty-four mergers and eleven withdrawals from the insurance business during this time.

The division oversaw the development and drafting of the following Department regulations:

> ACRR R4-14-215, Replacement of Life Insurance.
> This rule amended the existing regulation relating to replacement of life insurance. Essentially, the rule eliminated the requirement of using a comparative information form because it appeared that the form actually led to consumer confusion and misunderstanding. The rule continues to require that the existing insurer be notified of a replacement and that the insured be given a disclosure statement relating to general problems that may occur when an existing policy is replaced.
>
> ACRR R4-14-218, Exemption Standards for Life and Disability Forms.
> The insurance laws require that all life and disability insurance policy forms first must be approved by the Department prior to their use in Arizona. See ARS §20-1110. However, the Director is permitted to exempt certain policy forms from the filing requirement when he determines that the public interest is not served by

requiring such forms to be filed with the agency. id. This rule essentially memorializes the guidelines prepared by the Life, Disability and Licensing Division that led to the deregulation of certain life and health insurance policy forms.

ACRR R4-14-604, Credit Life Insurance and Credit Disability Insurance.
This rule mandates that sixty cents out of each dollar paid for credit disability insurance must go to pay benefits to Arizona consumers. The Department's actuary, Mr. William Robinson, reviewed existing rate levels and determined that the sixty per cent loss ratio was not being met and that the rates as set forth in this regulation needed to be substantially reduced. An amendment to this rule reduced the premiums for credit disability insurance by approximately twenty-five per cent, thereby substantially benefiting Arizona consumers.

The Hearing Division also conducted hearings to develop and establish guidelines which will become regulations during the current fiscal year. One of these areas involves insurance coverage for home health services. These medically necessary services are provided to patients in the home in lieu of hospitalization and could have a positive cost containment impact. The division also prescribed guidelines to implement S.B. 1118, the changes in the insurer investment law requirements. These guidelines generally establish specific investment grade ratings for determining the eligibility of investments, as well as the kinds of organizations whose investment grade ratings could be used for this purpose.

II. 1983 Insurance Legislation

The 1983 Regular Session of the Arizona Legislature again resulted in the enactment of several significant insurance bills. Those measures are summarized in a circular letter that I issued to the insurance industry and other interested persons on May 18, 1983. A copy of that circular letter appears hereafter.

III. Proposed 1984 Legislation

A principal responsibility of the Department is to propose new legislation for consideration by the Arizona Legislature. There are several major proposals that the Department is presently considering and will recommend to the 1984 Regular Session of the Thirty-sixth Legislature.

First, we believe that the ongoing concern with insurer solvency and the problems that have arisen due to the failure of insurers from non-guaranty fund states requires that the Department request legislation which would permit the Director to require an additional deposit from insurers that are domiciled in such states. This bill would permit the Department to better protect Arizona citizens from the failures of foreign insurers, while at the same time minimizing the impact on the state premium tax collections that may be due to guaranty fund offsets relating to assessments for insolvent insurance companies. The Department also believes that there is a compelling need to tighten existing laws relating to health care services organizations and hospital and medical service corporations in order to establish clearer solvency requirements. Increased statutory deposits and a requirement that such organizations be subject to the Director's supervision and conservatorship powers would lead to better protection for Arizona subscribers of these entities.

The Department is also considering requesting the enactment of a National Association of Insurance Commissioners (NAIC) Model Law relating to health insurance pools for uninsurables. At present, there appears to be a gap in the health care system for the non-indigent uninsurable who has not reached an age when Medicare will provide benefits. This person does not qualify for AHCCCS and, although he or she can afford to make premium payments, the market, due to underwriting guidelines, is substantially restricted. This model law should permit, for the first time, availability to the insurance marketplace for the non-indigent uninsurable.

We have also experienced problems with the Department's regulatory authority over bail bondsmen. This problem has been heightened by the failure of several surety companies and the inability of Arizona county attorneys to collect from local bail bondsmen. Therefore, the Department will request that the NAIC Model Bail Bondsmen Licensing Act be considered for introduction and passage by the Legislature.

The Department has also experienced problems with third party administrators (TPAs). We will propose to amend ARS § 20-485, et seq, to develop a more realistic bonding requirement and to expressly require coverage for individual policyholders. At present, current bonding requirements run exclusively in favor of insurers and not the affected policyholders. Because TPAs frequently control and direct the placement of health insurance business, while continuing to collect premiums and pay claims, there appears to be a need to permit the Department to also conduct periodic examinations of these organizations and bill the charges incurred therefor to the administrator, much as is done with insurers and other similar institutions.

The Department is also recommending that the examinations staff, consisting of approximately twenty-four full time financial and market conduct examiners, be permitted to participate in the State Retirement System. Legislation will be proposed which would authorize the examiners to be covered by the State Retirement System; all contributions would be made by the examiners and would be billed as part of the costs of examination to the insurers.

Finally, the Department is considering requesting the introduction of the NAIC Model Group Life and Health Insurance Acts and the NAIC Model Mass Marketing Act. This legislation would clarify the existing regulatory authority of the Department over out of state groups, particularly those that use out of state trusts as a marketing vehicle to solicit Arizona residents. Such legislation would assist the Department in ensuring that such groups comply with those necessary requirements of Arizona law that fully protect policyholders in this state.

IV. Conclusion

The Arizona Department of Insurance is committed to working with the Legislature, the insurance industry and the public to improve the overall quality of regulation in this state. We have a vital insurance industry and a favorable business and regulatory climate. The two together demonstrate that Arizona will continue to experience growth and competitive activity, as well as basic regulatory competence, in this vital area of commercial activity. The role of the Department will continue to be one of maintaining a balanced and responsible regulatory environment in which the insurance industry prospers and the Arizona consumer is well served and fully protected.

FROM: J. MICHAEL LOW

RE: 1983 ARIZONA INSURANCE LEGISLATION

The 1983 Regular Session of the Arizona Legislature has recently concluded. A number of significant enactments relating to the Insurance Laws of Arizona were made during this last legislative session. Therefore, I thought it would be useful to briefly summarize the major pieces of insurance legislation. This summary is not intended to be an exhaustive listing of all insurance bills that were enacted; rather the intent is to describe only the main areas where substantive changes in the Insurance Laws took place. Also, this circular letter should not be considered as a binding interpretation of the legislation described hereafter. Indeed, I would encourage all interested persons to contact the Insurance Department or the Secretary of State's office and obtain an exact copy of the particular legislation of interest.

The principal insurance legislation is as follows: (reference is to the House or Senate bill numbers enacted):

HB 2003. Quarterly Premium Tax.
This measure requires the payment of a premium tax on a quarterly basis for any insurer which paid a tax of $2,000 or more during the preceding calendar year. This law was an emergency measure and took effect on February 11, 1983.

HB 2087. Department Regulation of Health Care Coverages.
This bill was patterned after the NAIC Model Jurisdiction to Determine Jurisdiction Act. The new law establishes a presumption of Department jurisdiction over any entity that sells or offers for sale health care coverages in the

State of Arizona. The law exempts a self-insured program operated by a single employer for the benefit of its employees. The bill was requested by the Department as part of an effort to eliminate current abuses in the sale of health care coverages by certain multiple employer trusts (METs).

HB 2119. Amendments to Mandatory Auto Insurance Law. This measure is a comprehensive amendment to the mandatory automobile insurance law that was enacted during the 1982 Regular Session of the Arizona Legislature. The law requires that every motor vehicle operated in this State be covered by either auto liability insurance, self-insurance or a bond in accordance with prescribed financial responsibility amounts. The failure to possess evidence of current financial responsibility is a Class 2 misdemeanor until December 31, 1983, after which such failure shall be treated as a civil traffic violation. Every person applying to register his or her motor vehicle is required to certify that the financial responsibility requirements have been met and will continue to be observed. The Motor Vehicle Division will randomly sample ten percent of the motor vehicle registrations where an operator has committed a traffic violation within the previous twelve-month period in order to monitor compliance. Penalties for violations include a fine, suspension of drivers license, suspension of vehicle registration and, after the third violation, a mandatory one day in jail. The law was enacted on an emergency basis and took effect on April 27, 1983.

HB 2245. State Compensation Fund. This measure essentially subjects the State Compensation Fund to all provisions of the Arizona Insurance Laws, Title 20, ARS, and the rules adopted by the Director of Insurance to the same extent as any mutual casualty insurer authorized to write workers' compensation insurance in Arizona. The marketing representatives of the Fund must be licensed. The Fund must follow the same investment procedures and accounting requirements as private insurers. The law takes effect after December 31, 1983.

HB 2304. Property and Casualty Policy Forms.

This amendment, which was requested in part by the Department, permits the Director to exempt from filing certain property and casualty insurance policy forms if he deems that such filings are not necessary for the protection of the public. The bill also permits provisions within policies that, when viewed in their entirety are substantially equivalent to or more favorable to the policyholder than standard policy provisions, including the Arizona standard fire policy. Finally, this measure requires that all actions arising under property and marine coverage shall be brought within one year from the date of the occurrence unless the insurer extends such limitation beyond one year in its policy.

HB 2306. Prepaid Legal Insurance.

This measure establishes a regulatory format for prepaid legal service contracts. A prepaid legal insurance corporation will maintain on deposit with the Department a bond, cash or securities based upon the face value of the legal insurance contracts issued. The bill prescribes the requirements for registration of sales agents, the advertising and solicitation of legal services, the valuation of the assets of a prepaid legal corporation, the filing of an annual financial statement and the grounds which can lead to the suspension or revocation of the corporation's certificate of authority. The law specifically exempts lawyer referral services authorized by the State Bar, retainer agreements between attorneys and clients based upon estimates of the nature and the amount of legal services to be provided and contracts providing legal assistance to members of certain organizations which contract directly with an attorney for the provision of legal services.

SB 1118. Amendments to the Insurer Investment Laws.

This bill was chiefly the work product of an investment law advisory committee appointed to assist the Department in examining current insurer investment requirements and making appropriate recommendations regarding changes that should be made. The investment sections of the Arizona Insurance Laws had not been amended or changed in almost thirty years. This bill permits insurers to invest in several new investment vehicles, including second mortgages, zero interest bonds, deposits in foreign branches of United States banks, joint participations in first mortgages and first deeds of trusts, investments in mutual funds, investment trusts and common trust funds operated by banks and investments in collateral loans. Archaic earnings and dividend tests to determine eligibility have been eliminated in favor of an appropriate investment grade rating. The new law permits companies to invest in electronic data processing equipment and increases the "basket clause" provision for those investment that do not otherwise fit under specified categories from 5% to 10%. The new revisions to the investment laws should give insurers greater flexibility in today's changing economic environment, while maintaining basic prudent safeguards.

SB 1138. Psychologists and Chiropractic Contract Benefits.
This measure prohibits the denial of any claim for psychologist or chiropractic benefits under any hospital and medical service corporation contract, disability insurance contract or group disability insurance contract if the insurance coverage is for a service which is within the lawful scope of the practice of the psychologist or the chiropractor.

SB 1319. Life Care Contracts.
This bill makes several changes in the existing regulation of life care contracts. The measure requires a feasibility study including an actuarial analysis for the purpose of determining that a life care project has sufficient funds to be a viable operating concern. The amendment requires that all new providers possess assets in the first year of operation equal to at least 75% of the unamortized endowment fees, which percentage shall increase to 100% over a five-year period. It permits currently authorized life care facilities to increase their reserve for unamortized endowment fees to 100% by 1993.

Hopefully, the foregoing provides useful information with respect to the new insurance legislation recently enacted by the Thirty-Sixth Legislature. All new laws, other than HB 2003 and HB 2119, will take effect on July 27, 1983.

I would like to acknowledge the assistance and support of the respective insurance committees of the Legislature, the Senate Commerce and Labor Committee and the House Banking and Insurance Committee, in passing this significant insurance legislation. Both Senator Jacque Steiner, Chairman of the Senate Commerce and Labor Committee, and Representative Cal Holman, Chairman of the House Banking and Insurance Committee, greatly assisted in guiding several of these key measures through the legislative process. On balance, this was a productive year that saw the passage of important legislation designed to improve the regulation of insurance in Arizona.
